

Can you help us grow our impact?

BlueO2 is a non-profit foundation that works towards empowering coastal communities and developing regenerative practices. We do so by implementing nature-based climate adaptation, through applying permaculture principles and regenerative design and by simultaneously engaging local community networks. Our projects aim to create win-win opportunities between water-management, bio-diversity and wellbeing, locally with low-threshold applications and the active participation of the people it concerns most.

We are now looking for board members to strengthen our team.

Who are we looking for?

We're looking for committed board members who are actively involved with the work of our foundation and wish to contribute based on their knowledge, expertise and experience. BlueO2 board members have a hands-on mentality and know how to make things work.

What are the requirements?

- You have affinity with regenerative work;
- You are willing to invest time and energy into the activities of the board;
- You understand the importance of engaging people and networks so as to making projects work;
- You are solutions and opportunity oriented;
- You have the capacity to reflect and are accepting of a diversity in perspectives;
- You are based in the Netherlands or close enough to participate in activities of the foundation physically if that is required.

Membership to the board is an unpaid position.

Where can I get more information?

If you have any questions or want to react to this call, please contact Kosta Skliris via kostantinos@blueO2.com or 06 18520823
